## **CHAPTER 1: Conspiracy** (But only if I don't have to wear a tin hat.)

---

If you picked up this book, chances are you are becoming aware that the things going on in the world are not at all as they had seemed. What you were led to believe is becoming unraveled. This understanding can be extremely unsettling, scary, and overwhelming. I can imagine. Everything we have been told has been a lie. Yes, I do mean everything. As a coach, I Believe in cutting to the chase and telling you what you need to hear to make quantum leaps in your life. The sooner you can accept that everything has been a lie, the sooner you can rectify it. When people hire a coach, they do so because the coach has been where they have been and are now where they want to be. They want to take advantage of the coach's life experience and knowledge to fast-track their own progress.

A good coach doesn't work with everyone. They will only work with coachable and teachable clients who will do the work they lay out for them so they can reach their goals. Are you coachable and teachable? If not, I suggest you stop here as this book is not for you. As your coach, I will make this book short, to the point, and as straightforward as possible. I'm not going to try to convince you of anything. You are reading this because you know something is wrong. And I want to make this book a quick read so you can reclaim your power and change the direction in which your life is heading. It is as easy as a choice. You are more powerful than you know. I desire you to realize your power, embrace it, and live a life of joy, positivity, happiness, and bliss you never thought possible in your wildest dreams. I can assure you everything is possible. But if you don't believe that, it won't be true for you. You see, your beliefs create your reality. It is the power you didn't know you had. You have been masterfully manipulated to play small and comply. But that time is past now. If you read this book, I will assume you are ready to hear some unpleasant truths and a solution that will make all that's wrong right again. Hang with me now as we explore what is going on and how you can fix it. Are you ready to make some quantum leaps? OK then, here we go!

Conspiracies? Really? Yes. The fact that the government is not your friend must be accepted before you can go any further. At the 30,000-foot view, a spiritual war is going on, and it's a big cosmic game. You probably didn't know. How can you win a war or a game if you don't even know you are in one? The genius manipulation you have been under since birth has blinded you to these two facts and stripped you of your natural power. You have been emasculated, and you didn't even know it. You're Playing a game and losing badly, and you didn't know that either. It seems unfair, doesn't it? Well, the good news is, your inner spirit, or higher self, led

you to this book, and you are about to jump into the war and the game with both feet and win both! How does that sound?

From a spiritual aspect, you are a spiritual being having a human experience, not the other way around. Being a spirit, first and foremost, you need to realize that there is a spiritual war and, as such, must be fought in the spiritual realm. I am not talking about religion here. I am talking about taking back your power as the unlimited, all-powerful, divine spirit that you are. Before you came to this earth, you chose the challenges you wanted to experience. You chose your parents, family and friends, spouse, and everything about your life before you were born. Then, as part of the cosmic game, you forgot all this, including your power. You were also betting on yourself that you would figure this all out. The good news is you are reading this book and figuring it out. Part of my reason for coming to earth is to help you do this! It is my honor.

So yes, you wanted to be here for this time in human history. You knew about the challenges the pandemic would thrust upon the human race. You also knew the other side of the coin was that you could realize your power and learn how to escape it all. You are witnessing the enslavement of humanity right now.

They say that earth is a school. And those who came here to help with the liberation of humanity are real warriors. And That the lessons are very, very hard but become easy when you unlock the secrets. That is why you wanted to come here: learn the hard lessons, reclaim your power, turn the tables, and live a life of bliss. Not a life of slavery to the bankers, politicians, and the monetary system. Is there a better way? Hell yes! When we get to the New Earth, I will tell you more about that. But for now, know that you are the best of the best to come down to earth for this point in human history and take on this task, this war, this game, and I knew you were going to win!

Did you think that mandatory experimental medical treatments are good for anyone? Did you know that wearing masks shows your subservience and slavery? It's OK. We Were all duped at one point or another. As I said, we were lied to since birth. You're probably wondering what the endgame is here. That is beyond the scope of this book. For now, you must realize that you have been disempowered, lied to, and trapped into a reality you will not and do not want.

So how do I get out? I am so glad you asked. Let's talk about timelines and a little bit about quantum physics because this is how you escape. You see, you are the creator of this game. You created all the characters, including the nefarious ones. And you knew you were going to win and escape! The stakes were high, but you took a gamble on yourself to figure this all out.

---

Remember the quantum leaps I spoke of before? Here we go.  
Quantum physics teaches us a few things that can help us understand timelines.

Lesson #1: There is no time.

It was constructed as part of the cosmic game so you could have this experience. There is only ever now. I know that is hard to believe, but it is true. So when you know this, you can manipulate time and timelines. I will give you some resources at the end of this book to help you quantum leap into how you can do this. But for now, I need you to know that there are multiple timelines with different things occurring within each, and when you know this, you can create a timeline you prefer.

### **So how do we create a new timeline?**

---

Lesson #2 Your thoughts create your reality.

We are already doing it; we don't know that we are doing it (your power was stripped from you). Your Thoughts, feelings, and actions create your reality. Quantum physics tells us that we are all projecting our reality into the quantum field. That's correct, and you are a human projector. Your earthly experience is a hologram that you are projecting. It is not unlike a dream. In fact, dreaming is very similar to waking life. Dreaming is another dimension, but we're actually dreaming a very lucid dream right now when we are "awake." The irony is that when you awaken to this fact, you will realize that this is all a dream and you are really "asleep." Good job in creating such a difficult game to figure out!

## CHAPTER 2: Shifting Timelines

---

You see, the globalists, or let's call them the negative side, know all these secrets that you are learning. And they trap you into their timeline by hijacking your consciousness through the mainstream news and social media, books, movies, music, and the education system. You see, you are creating a timeline, through being manipulated, that ended up entrapping you. So the quick and simple way to escape this timeline is to STOP watching the mainstream news and social media. (Are you coachable?) Refuse to let anything into your consciousness that is not what you want. I need you to take the opposite approach and create the timeline you desire proactively. You don't have to listen to or believe what is happening in the world.

Remember, this is a hologram that you are projecting into the quantum field. You have been relentlessly steered in the wrong direction. It is time for you to correct the course quickly, and you will be good to go! Like Dorothy in the Wizard Of Oz, she didn't know that all she had to do was click her heels three times, and she could go home. You didn't know your power. But now you do!

Start following spiritual groups on social media that know these secrets. X out any posts on your Facebook newsfeed that is not what you want to see. Start doing some guided meditations. **Don't let ANYTHING into your stream of consciousness that you don't want.** Check the resources at the end of this book for more ways to walk in your newfound freedom. You always have a choice and can create a happy ending for yourself and your family!

### **Extra credit:**

There are many different timelines to infinite possibilities. You narrow into one timeline through your focus, intention, thoughts, feelings, and actions. I find quantum physics fascinating, and I found an excellent teacher that I will share in the resources sections of this book. You can learn all the detailed knowledge of which I am just scratching the surface. The more you know, the better you will create the reality and timeline you want.

In closing off this chapter, you need to know that a timeline "split" is happening right now, and you DO NOT want to be on the wrong side. No matter what has happened this far, it is never too late, and no situation is beyond correcting with this knowledge and action. The negative side and those they have duped will continue in a negative trajectory, and the enslavement of humanity will be happening in that timeline. I cannot stress this enough. You need to create a

new timeline and eliminate the negative one. The enslavement will only get worse. You will not be happy if you ignore the information I give you here. The line has been drawn in the sand. Which timeline will you choose? Only the strong survive in this tough, challenging cosmic game. Make the right choice, and you and your family will benefit greatly!

The 5D New Earth, also called Aria, is the timeline you take if you follow what I am saying and shift your timeline and reality. What is Aria, you may ask? Aria is like utopia, nirvana. It is based on the vibration of the heart and love. It will completely overhaul society as we know it now—no more wars, starving children, or division. Everyone will love one another with unconditional love. Judging others will be a thing of the past. There will be full acceptance of everyone—their lifestyles, opinions, and beliefs.

There will be a new financial system, called the QuantumFinancial System, so very different from the monetary debt/slavery that we are in now. There will be plenty of everything for everyone, finances, resources, food, and fun! Life should be fun!

We are all One, and in the New Earth, we all know this and treat one another with the utmost love and respect that we would give to ourselves. Self-love, the basis of everything good in your life and this world, will be common. (Lack of self-love, through lifelong, systematic manipulation, is a core issue that needs correcting.)

There will be no divisions of countries or political parties, or religions. The patriarchal society will give way and rise to the Divine Feminine taking her rightful place in society. There will be no need for hospitals because MedBeds and super technology will help us self-heal, age regress, and even live forever. Remember when I said anything is possible? You must believe it before you can see it. This concept is the opposite of what we have been taught. If you want to see a society and the New Earth, Aria, like I just described, awaits you in your new timeline.

## CHAPTER 3: The New Earth

---

So, just like the negative side feeding you lies to create their timeline of enslavement to humanity, I am feeding you the truth of what you can see if you believe it and realize your power. You cannot create anything unless you have knowledge of its frequency. This is more advanced quantum physics. This is why if you believe it, you will see it. If you don't -you won't. If you immerse yourself in the resources I am giving you here, you become more and more empowered as you understand how this all works and how you can create anything you want, any reality at all! Now THAT'S power - power you never knew you had. That is, until NOW.

I hope this has been helpful to you and cleared up a few things. Now if you are coachable, dive into these resources and begin to live, really live in your true power and purpose. Please don't waste a lot of time being angry and disillusioned, it is not productive, and you are just delaying getting on with creating the rest of your life. I DON'T recommend going down conspiracy rabbit holes. This is another trap that will put you into the wrong frequency and timeline. Take what you have learned here and ignore anything that you don't want in your reality. Congratulations! You cracked the code and won the game and the war! Oh, by the way, the war has already been won, the positive timeline is 100% happening, and we are just dreaming now about how we made it.

Please share this book with anyone who you think can benefit from this information. I tried to make it a quick read without diving into too much explanation because you can do research on your own. I hope this will help you and those you share it with. It is part of my mission here on earth to write this book and share this knowledge with you. I might add that the negative side had tried to take me out earlier in my life when angels rescued me from two deadly car accidents. I escaped many other things in my life to be here today to write this book and help you out. As you will learn if you study quantum physics further, I am just another version of you, and you projected me into your hologram to assist you in your escape. So, again, congratulations! You created one helluva game and cracked the code. You and I both knew you could do it!

I'll see you on the New Earth, beautiful soul!
